RE: THANK YOU

Last year was a watershed moment for the treatment and recovery business community. We have come very far in our collaborative relationship with the Sober Home Task Force (both legislative and law enforcement) to eliminate rogue and unscrupulous bad actors within this space who took advantage of the foundation of the long-standing Recovery Community you have worked so hard to maintain and protect all of these years. I know you are committed to providing the very best in health care and ancillary services within this space, and that integrity is what motivates me to continue to fight for you at the highest levels possible.

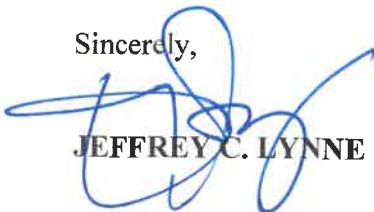

For this reason, we have made it our mission to stay timely informed with all changes in the laws which impact delivery of this essential healthcare service. We continue our direct involvement serving on the Palm Beach County Sober Home Task Force Proviso Committee and continue to speak with the Florida Department of Children and Families regarding proposed changes to Chapter 65D-30. Further, we regularly meet with local, regional, state and federal elected officials to best position the private treatment and housing provider industry for success.

In 2018, we have limited the number of clients that we will serve so we can continue to provide the personalized, concierge-level services you have come to experience as a client. Our goal is to efficiently and professionally provide you with cost-effective, sophisticated legal representation for all of your needs. Our zoning, licensing, real estate, title insurance, corporate, employment law, commercial litigation and insurance carrier dispute resolution practices provide a "one stop shop" to surround you with professionals who are specifically attuned to the needs of treatment and housing providers like yourself.

As a result of these changes to the industry, our hourly billing rate structure for new matters was increased, effective January 1, 2018. However, upon further reflection, we have elected to keep the rates unchanged for this year. If any invoice reflected an increased hourly rate, please contact Elizabeth so that can be re-adjusted for you. We have also successfully implemented "flat fee" arrangements whenever possible so that your legal costs can be anticipated and budgeted. Our goal is to have the most effective and experienced staff member handling your needs at any given time at the best rate available.

We are very grateful and appreciative that you continue to rely upon us to provide you with your legal services in this highly specialized field. Our phones, emails and doors are always open to you for any questions or concerns you may have.

Sincerely,

JEFFREY C. LYNNE
